

Miranda Weathers

she/her/hers

Outreach and Advocacy Coordinator

Miranda is a non-traditional first-generation master's level student studying counseling psychology at the University of Louisville. Miranda has professional experience working closely with individuals impacted by interpersonal and community violence which has contributed to her research interests in disenfranchised communities, PTSD/trauma, substance use disorders, adverse childhood experiences, and the impacts of community and interpersonal violence. Miranda is a member of the American Psychological Association (divisions 1, 35, 56, and APAGS) and the Kentucky Psychological Association and is committed to a career combining research, community engagement, advocacy, and education to promote equity and the empowerment of all individuals.
