

Frederick G. Grieve, PhD

Rural Interest Section Representative

Term Expires: 12/31/2026

Nathan Ratliff received his Master of Science in Clinical Psychology from Morehead State University in 2008 and has been providing services in eastern Kentucky since graduation. He has been employed by Pikeville Medical Center since 2019, providing services primarily in the Bariatric and Oncology departments. He previously worked in a community mental health center for 11 years. During his time in community mental health he worked as a school based therapist, ran a therapeutic day treatment program for adolescents, was his region's Early Childhood Mental Health Specialist, and provided outpatient services to adults as well. He has provided trainings on a variety of mental health topics to schools, agencies, and organizations within the region. He has a passion for serving those within his community, and hopes to be a voice for psychologists in rural areas across the state in promoting psychology and addressing the needs and issues concerning them.

Nathan lives in Pike County with his wife, two children, and mini dachshund Roscoe. In his spare time he enjoys the outdoors, hunting, fishing, hiking, kayaking, and spending time with his family.
