FOUNDATION

ANNUAL REPORT 2018

PROMOTING HEALTHY & MEANINGFUL LIVES

A NOTE FROM THE PRESIDENT

An annual report is a comprehensive report on a company's activities throughout the preceding year. Annual reports are intended to give shareholders and other interested people information about the company's activities and financial performance. They may be considered as grey literature. Most jurisdictions require companies to prepare and disclose annual reports, and many require the annual report to be filed at the company's registry. Companies listed on a stock exchange are also required to report at more frequent intervals (depending upon the rules of the stock exchange involved).

Other information deemed relevant to stakeholders may be included, such as a report on operations for manufacturing firms or corporate social responsibility reports for companies with environmentally or socially sensitive operations. In the case of larger companies, it is usually a sleek, colorful, high-gloss publication.

An annual report is a comprehensive report on a company's activities throughout the preceding year.

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable Law of the Republic of Ireland, including the accounting standards issued by the Accounting Standards Board and published by The Institute of Chartered Accountants. Irish company law requires the directors to prepare financial statements for each financial period which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

CAPITAL CAMPAIGN

For the past 30 years, the KPA central office has been renting space in the same location without building equity. Over that time our efforts to promote psychology and psychologists have expanded. This work is currently supported by both the Kentucky Psychological Association and Kentucky Psychological Foundation who share staff and work together to advance and improve mental health in Kentucky.
